The Way to Live  
Die Art-zu-leben

When human beings harm the ones next to them, then they first and foremost harm themselves because their own evolution is thereby inhibited. But progress is the effective recommendation of the life, in order to grow in knowledge, love, peace, wisdom and harmony, whereby the law of the creational plan and way is fulfilled, so that the sense of the human life shall be directed at evolving and becoming knowing and wise, in order to one day go into the Creation in the highest form achievable regarding this, and to become one with it.

- Jealousy is no longer known to the inhabitants of the planet Erra.

108. The material thinking of the Earth-human is indeed very decisive for the emotional and feeling life.

109. The more the human being of the Earth got caught in material thinking in former times, the more he/she influenced his emotional life with greed.

110. Thus he gradually coupled his material thinking with the core of his feeling-center, so that they inevitably became one feeling-thought complex.

111. Consequently, especially the feelings of hatred and love, which are generated by thinking and appear as feelings of the inner being, were impregnated by material values, which created themselves as greed of possession of both forms, namely into the greed of possession of love and into the greed of possession of hatred.

112. In both forms an ego-related greed for possession develops, which must inevitably lead to a third form of greed for possession, also produced by the human himself/herself, namely the greed for possession of the love-hate.

113. In all cases, a possessiveness appears, triggered by material thinking, which exacts a right to the possession of love or hate, and a right to the human to whom love or hate applies, whereby this right is again considered property.

114. The production of jealous possession thinking depends exclusively on the form of the level of consciousness and on the emotions; it is universally uniform and thus not earthbound, whereby I would like to emphasise, however, that on Erra these lower levels of consciousness no longer exist and jealousy is no longer known to our people, or, as I better can explain, no longer pertains, because in earlier times our peoples also had to go through these stages.

115. The more immaterial the human's thinking becomes, the more he/she distances himself from possession thinking, which is also called feeling-thinking.

116. So the norm of liberation of every level of consciousness in relation to the jealous as well as the material and other possessive thinking is actually considered to be the yardstick of the evolutionary stage.

117. A completely anti-materialistically thinking, feeling-based and emotionally balanced and truly consciously developed human being is no longer able to generate jealousy in himself/herself, because his/her thinking has become all-embracing thinking, which in reverence regards all possessions as venerable and in love and joy elevates them to the common good, but always in the sense that a venerable bond is given in observance of the laws and recommendations, and indeed, from every side.

124. If two people join together to form a marriage bond, this does not mean a taking possession of the partner, but simply that they join together in a bond.

125. So there are no rights of ownership, but only love, understanding and joy in the pleasure of the other.

126. Each partner remains completely free in his or her own actions and in allowing the laws and recommendations to be fulfilled, while in purely conjugal actions and letting things be, as in decisions etc., one acts in mutual agreement with all interests.

127. In the fulfilment of the laws and recommendations in an evolutive sense, and in every respect concerning this, mutual clarifications and agreements are necessary, which is given by certain rules of order.

..., but now explain what Creation actually embodies in and of itself.

I think that it is not a human or other material being or an individual ethereal being, but simply the universal consciousness.

Semjase

119. With this you have already given the explanation.

120. I cannot explain any more about it, because our knowledge is limited in this respect, as well.

121. Creation is the same as universal consciousness, which directs, thinks and rules in the BEING of consciousness, as a double-spiral egg formation, which at the same time forms the universe in its seven-belted growing extension, whereby the double-spiral arms live pulsating as spiritual energy and rotate against each other.

122. We do not have more knowledge about Creation itself.

123. Like you we only know the causes and the effects, the existence and the laws and recommendations but nothing more.

'Billy' Eduard Albert Meier

I should not have asked you about it, you seem to be somber now.

Semjase

124. Your question once again made it very clear to me how little we know despite our enormous knowledge.

All right, then a question that you have already answered sufficiently and which must therefore seem illogical to you:

Have some of you incarnated on the Earth?

Semjase

78. You know that this is impossible because none of us died on the Earth, so you ask very illogically.
